

 **Research Projects Survey**

The purpose of this survey is to gather data on eParticipation Research Projects that are a part of ongoing DEMO-net work. We anticipate that the survey results will help to create an overview of the Pan-European landscape in the eParticipation domain.

The analysis conducted in DEMO-net work package 5 has led to the identification of key participation areas and eParticipation tools and technologies. These results are reported in deliverable D5.1.

This survey will allow partners and researchers involved in DEMO-net to collect relevant data in a structured manner. It is the result of a joint effort between principals involved in work packages 3 and 5. This structured way of collecting data will enable further classification and analysis of the results which will enable the identification of collaboration opportunities.

The eParticipation research projects that have taken place are divided according to their funding source. The projects are therefore classified as follows:

- EU-level experiments – funded by the European Union
- National experiments – funded by national governments
- Regional/local experiments – funded by local or regional authorities (city councils etc.)

The survey results will be published in Demo-net deliverable D5.3 (“Report on Experiment at the Local, Regional, National and European Level”). D5.3 will be integrated with D11.2 (Initial Compendium of eParticipation Initiatives at the Local, Regional and National Levels Highlighting Aspects of the DEMO-net Agenda Being Addressed). The survey results will also be available at the DEMO-net Virtual Research Centre at a later date.

This survey will take approximately 20 minutes to complete.

You may print this survey by clicking on the printer icon.

Please provide us with some background information on your project.

Project Full Name and

Acronym:

Country (select all the apply):

Region (if applicable):

City (if applicable):

Start date (MM/YYYY):

End date (MM/YYYY):

Question Text

yes

no

Project completed?

(1)

(2)

Budget (total in euros):

(1)

(2)

Funding authority:

(1)

(2)

Description:

(1)

(2)

yes

no

Aim/Objectives:

(1)

(2)

Participation area(s)? (check all that apply)

(1) Collaborative environment/Community Building

(2) Cultural politics

(3) Discourse

(4) Deliberation

(5) Consultation

(6) Polling

(7) Voting

(8) Campaigning

(9) Electioneering

(10) Information provision

(11) Legislation

(12) Mediation

(13) Spatial Planning

ICT Tools employed (check all that apply)

- (1) eParticipation Chat Rooms
- (2) eParticipation Discussion forum/board
- (3) Decision-making Games
- (4) Virtual Communities
- (5) Online surgeries
- (6) ePanels
- (7) ePetitioning
- (8) eDeliberative Polling
- (9) eConsultation
- (10) eVoting
- (11) Suggestion Tools for Planning Procedures
- (12) Webcasts
- (13) Podcasts
- (14) Wiki
- (15) Blogs
- (16) Quick polls
- (17) Surveys
- (18) GIS-tools
- (19) Search engines
- (20) Alert services
- (21) Online newsletters
- (22) Frequently asked questions (FAQ)
- (23) Listservs
- (24) Web portals
- (25) Groupware tools

(26) Other (please specify) _____

Technologies Used (if known)(check all that apply)

- (1) e-mail technologies and protocols
- (2) Instant messaging
- (3) File sharing
- (4) Streaming media technologies
- (5) Data management systems
- (6) Word/Document Processing Technologies
- (7) RSS Syndication
- (8) CSCW / Groupware
- (9) Semantic Web Technology
- (10) Web services
- (11) Agent Technology
- (12) Data Mining
- (13) Ontological Engineering
- (14) Natural Language Processing
- (15) Privacy Enhancing Technologies (PET)
- (16) Mobile Technologies (e.g. WAP)
- (18) Identity Management
- (19) Filtering Technologies
- (17) Other (please specify) _____

Please provide us with some additional information:

Results (preliminary or final): _____

Possibilities for Cooperation

(with other DEMO-net partners):

Information provided by:

Thank you for taking this survey.

If you are working on or plan to work on another project, please send Øystein Sæbø [oystein.sabo@hia.no] a message so that he can collect this information from you.

Your answers are valuable and will contribute to improving collaborative activities in Demo-net.
